2. ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1. Accounting period and accounting currency

Annual accounting period commences from 1st January and ends as at 31st December.
The Company maintains its accounting records in VND.

2.2. Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Company applies the Corporate Accounting Regime promulgated under Circular No. 99/2025/TT-BTC dated October 27, 2025, by the Ministry of Finance.

Declaration of compliance with Accounting Standards and Accounting System

The company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current Accounting Standards and Accounting System.

2.3. Basis for preparation of Separate Financial Statements

Separate financial statements are presented based on historical cost principle.

Separate financial statements of the Company are prepared based on summarization of transactions incurred, then recorded into accounting books of dependent accounting entities and at the offices of the Company.

2.4. Financial Instruments

Initial recognition

Financial assets of the Company including cash and cash equivalents, trade receivables and other receivables, lending, long-term and short-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

Financial liabilities of the Company including loans, trade payables and other payables, accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expense directly related to the issuance of those liabilities.

Value after initial recognition

There are currently no regulations on revaluation of financial instruments after initial recognition.

2.5. Foreign currency transactions

Transactions arising in currencies other than the Company's accounting currency (VND) are accounted for in accordance with the accounting policies applied by the entity as regulated in Article 69, Account 413 "Foreign Exchange Rate Differences" of Circular No. 99/2025/TT-BTC.

At the end of the accounting period, the monetary items denominated in foreign currencies must be revaluated using the average transfer buying/selling exchange rate of the commercial bank where the Company regularly conducts transactions.

All sums of real exchange rates for foreign currency transactions in the year and real exchange rate upon re-determining accounts derived from foreign currencies at the end of the year are recorded immediately to results of business operations in accounting year.

2.6. Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, bank demand deposits.

Cash equivalents is short-term highly liquid investments with maturity less than 3 months from the date investment, can be converted easily into a certain amount of cash and there is no risk in conversion into cash.

2.7. Financial investments

Investments in subsidiaries, joint ventures or associates are initially recognized in the ledger according to original cost. After initial recognition, the value of these investments is determined at original cost less provision for diminution in value of investments.

Investments in equity of other entities included: investments in equity of other entities but not control, joint control, or significant influence on the investee. Book value of these investments is determined at original cost. After initial recognition, the value of these investments is determined at original cost less provision for diminution in value of investments.

Allowances for devaluation of investments are made at the end of the year as follows:

- With regard to investments in trading securities: the provisions shall be made according to the excess of original cost of the investments are accounted in the accounting book value over their market value on provision date.
- With regard to investments in subsidiaries, joint ventures or associates and investments in other units: the provisions shall be made according to the Separate financial statement/Consolidated financial statement (if the investment side is a parent company) of subsidiaries, joint ventures, associates at the time provisions are made;

2.8. Receivables

The receivables shall be kept records in details according to period receivables, entities receivables, types of currency receivable and other factors according to requirements for management of the Company.

The allowances for doubtful debts is created when: An overdue debt under an economic contract, a loan agreement, a contractual commitment or a promissory note and debts are not due but difficult recovery. Accordingly, the provisions for overdue debts shall be made according to time in which the principal is repaid according to the sale contract, exclusive of the debt rescheduling between contracting parties and the debts are not due but the debtor is close to bankruptcy or undergone procedures for dissolution, or the debtor is missing or makes a getaway.

2.9. Inventories

Inventories are initially recognized at original cost included: the purchase price, costs of conversion and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the time the financial statements are prepared if the net realizable value is lower than cost, inventories should be measured at the net realizable value.

The cost of inventory at the year-end is calculated by weighted average method.

Inventory is recorded by periodic method.

Method for determining the value of unfinished products at the end of the period: Unfinished production and business costs are gathered according to actual costs incurred for each type of unfinished product.

Allowances for devaluation of inventories made at the end of the period are the excess of original cost of inventory over their net realizable value.

2.10. Tangible fixed assets and depreciation

Fixed assets tangible and intangible are stated at the historical cost. During the using time, fixed assets tangible and intangible are recorded at cost, accumulated depreciation and net book value. Depreciation is provided on a straight-line basis method (or method of depreciation based on volume/ adjusted reducing balance method).

The historical cost of finance lease fixed assets is recognised at fair value or present value of the minimum lease payments amounts (in case the fair value is greater than present value of minimum lease payments amounts) plus initial direct costs incurred in connection with financial leasing activities (excluding value added tax). During the using time, finance lease fixed assets are recorded at historical cost, accumulated depreciation and net book value. Depreciation of financial lease fixed assets is depreciated over the lease term and charge to operating costs in order to recover all capital.

Depreciation is provided on a straight-line basis. Depreciation period is estimated as follows:

- Buildings	10 - 50 years
- Machinery, equipment	06 - 20 years
- Transportation equipment	06 - 10 years
- Office equipment and furniture	03 - 08 years
- Others	05 years
- Land use rights	49 years
- Managerment software	05 years

The Company applies the accelerated depreciation method (with the depreciation rate not exceeding 02 times as much as using the straight-line method) for some machinery and equipment to quickly recover capital and innovate technology.

2.11. Prepaid expenses

The expenses incurred but related to results of business operations of several accounting periods are recorded as prepaid expenses and are amortised to the income statement in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to profit and loss account in the year should be based on nature of those expenses to select a reasonable method and allocated factors. Prepaid expenses are allocated partly into operating expenses on a straight-line basis.

2.12. Account payables

The payables shall be kept records in details according to period payables, entities payables, types of currency payable and other factors according to requirements for management of the Company.

2.13. Borrowings and finance lease liabilities

The value of finance lease liabilities is the total payable amount calculated on the present value of minimum lease payments or the fair value of leased assets.

Loans and finance lease liabilities shall be kept records in details according to entities loans, loan agreement and loans and finance lease liabilities term. In case of loans or liabilities in foreign currency shall be kept records in detail the currency.

2.14. Borrowing costs

Borrowing costs are recognized into operating costs in the period, except for which directly attributable to the construction or production of unfinished asset included (capitalized) in the cost of that asset, when gather sufficient conditions as regulated in VAS No. 16 "Borrowing costs". Beside, regarding loans serving the construction of fixed assets, investment properties, and the interests shall be capitalized even if the construction duration is under 12 months.

2.15. Accrued expenses

Payables to goods or services received from the seller or provided for the seller during a reporting period, but payments of such goods or services have not been made and other payables such as annual leave salary, expenses in seasonal cessation of production period, interest expenses... which are recorded to operating expenses of the reporting period.

The recording of accrued expenses to operating expenses during a period shall be carried out in conformity with revenues and expenses incurring during a period. Accrued expenses payable are settled with actual expenses incurred. The difference between accrument and actual expenses are reverted.

2.16. Provision for payables

Provision for payables only record when meet all following conditions:

- Enterprises have current debt obligation (legal obligation or jointly liable obligation) due to result from a fact happened;
- Decrease in economic benefits may happen leading to the requirement for payment of debt obligation;
- Giving a confident estimation on value of such debt obligation

Value recorded of a provision payable is the most reasonably estimated the amount which will be paid for current debt obligation at the end of the fiscal year.

Only expenses related to the provision for payable set up initially shall be offset by that provision for payable.

Provisions for payables are recorded in business and production costs of the accounting period. In case provision set for the previous period but not used up exceeds the one set for the current period, the difference is recorded as decrease in production and operation expenditures. The bigger difference of the payables provision on insuring the construction is recorded into other revenue in the fiscal year.

2.17. Equity

Equity is stated at actually contributed capital of owners.

Share premium shall record the difference between the par value, direct costs related to the issuing shares and issue price of shares (including the case of re-issuing stock fund) and can be a positive premium (if the issue price is higher than par value and direct costs related to the issuance of shares) or negative premium (if the issue price is lower than par value and direct costs related to the issuance of shares).

Option of conversion of bonds into shares (the capital component of the convertible bond) arising when enterprises issue bonds that can be converted into a certain number of shares shall be prescribed in issuance plan. The value of the capital component of the convertible bond is defined as the difference between the total sums received from the issuance of convertible bonds and the value of the debt component of convertible bonds.

Undistributed profit after tax is used to record business results (profit, loss) after corporate income tax and situation of income distribution or loss handling of company. In case payment of dividends, profits for the owners exceeding the undistributed profit after tax shall be essentially decrease of contributed capital. Undistributed profit after tax can be distributed to investors based on capital contribution rate after approval by General Meeting of Shareholders / Board of Directors and after making appropriation to funds in accordance with the Company's Charter and Vietnamese regulatory requirements.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after declaration from the Board of Management and announcement closing date receipt dividends of Securities Depository Center of Vietnam.

2.18. Revenue

Sale of goods

Revenue from sale of goods should be recognized when all the following conditions have been satisfied:

- The entity has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Services rendered

Revenue from rendering of services is recognized when all the following conditions have been satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The stage of the completion of the transaction at the end of the reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

The stage of the completion of the transaction may be determined by surveys of work completed methods.

Finance income

Revenue arising from the used by the others of entity assets yielding interest, royalties and dividends shall be recognised when:

- It is probable that the economic benefits associated with the transaction will flow to the entity; and
- The amount of the income can be measured reliably;

Dividends shall be recognised when the shareholder's right to receive payment is established.

2.19. Revenue deductible items

Revenue deductions from sales and service provisions arising in the period include: Trade discounts, sales allowances and sales return.

2.20. Cost of goods sold

Cost of goods sold is recognized in accordance with revenue arising and ensure compliance with the prudence principle. Cases of loss of materials and goods exceeded the norm, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned,... are recognized fully and promptly into cost of goods sold in the period.

2.21. Financial expenses

Items recorded into financial expenses consist of:

- Expenses of capital borrowing;
- Provision for provision for losses from investment in other units, losses incurred when selling foreign currency, losses from exchange rate.

The above amounts are recorded according to the total amount incurred in the period, not offset against financial income.

2.22. Corporate income tax

Current corporate income tax expense is determined on the basis of taxable income for the period and corporate income tax rate in the current fiscal year.

2.23. Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and affiliated companies;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals;
- Enterprises due to the above-mentioned individuals directly or indirectly hold an important part of the voting rights or have significant influence on the Company.

In considering the relationship of related parties to serve for the preparation and presentation of Separate Financial Statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.
